STATEMENT:

management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Tillamook ODF District at (503) 842-2545 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

SPECIAL REMARKS:

NO PERSONAL OR COMPANY CHECKS WILL BE ACCEPTED FOR THE BID DEPOSIT.

THE ENTIRE SALE AREA IS WITHIN A MARBLED MURRELET MANAGEMENT AREA: SEASONAL RESTRICTIONS APPLY - SEE SECTION 2455.

Acreage was calculated from a GIS digital orthophoto.

Seasonal operating restrictions will be in effect on portions of the timber sale from April 1 through September 15 (Section 2035, "Hauling and Operating Time Restrictions"; Section 2310, "Felling"; Section 2335, "Snag Creation"; Section 2350, "Cable Yarding Specifications"; Section 2355, "Ground Based Operations"; and Section 2610, "Project Work").

All felling shall be completed by March 15, 2011.

The information shown on the Exhibit A map(s) are approximate locations. Exact locations of features represented by map symbols shall be determined on site and shall depend upon the conditions that exist on site. Biological Survey Report

Project: Hansen Falls
Date: January 13, 2010
To: Kevin Boyd
CC: Andy White, District Sale File
From: Jennifer Weikel

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls and marbled murrelets.

Survey Results

This sale was surveyed for northern spotted owls in 2007 and 2008, using a protocol endorsed by the U.S. Fish and Wildlife Service¹. Northern spotted owls were not observed during these surveys.

Surveys for marbled murrelets were conducted in 1992-2009, using a protocol developed by the Pacific Seabird Group². Subcanopy observations of marbled murrelets have been made on multiple occasions adjacent to this timber sale. There was a single survey in 2009 that included multiple subcanopy observations in sale area 2.

Unpublished report for the Pacific Seabird Group Marbled Murrelet Technical Committee. 76 pp.

Known T&E Resources

There are no northern spotted owl activity centers affecting this sale.

This sale is within a Marbled Murrelet Management Area (MMMA). ODF has completed a Biological Assessment that describes the potential short and long term effects of the harvest activities on the MMMA. It concludes that the Hansen Falls timber sale poses a low short-term risk to the MMMA. The Oregon Department of Fish and Wildlife has reviewed the final Biological Assessment and concurs with the low risk designation. The long term goal of the prescription is to accelerate the development of marbled murrelet habitat within the MMMA, while minimizing potential short-term risks.

Operational Considerations

Seasonal operating restrictions for timber harvest activities, including the use of chainsaws, yarding, and loading will be in effect from April 1 through September 15, annually for all areas. For areas 1 and 4, operations may be allowed from 2 hours after sunrise until 2 hours before sunset from August 6 through September 15, annually.

Seasonal operating restrictions for hauling will be in effect from April 1 to September 15, annually. Hauling may be allowed from 2 hours after sunrise until 2 hours before sunset from August 6 through September 15. Use of compression brakes shall not be allowed between April 1 and September 15.

Within all sale areas, trees with limbs 5" in diameter and larger must be protected to avoid damage to marbled murrelet habitat.

No cable yarding will be allowed within Area 2.

The sale has been configured so that the entire sale may be harvested using ground-based equipment, but cable yarding systems may be allowed upon request. Cable yarding will not be allowed west of Big Rackheap Road.

Current northern spotted owl survey results are valid until March 15, 2011. Marbled murrelet survey results are valid until April 1, 2015.

All timber should be felled by March 15, 2011.

Future Survey Plans

ODF has no plans for further survey of this sale. However, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract. In addition, marbled murrelet surveys are scheduled to be conducted within ¼ mile of the sale during the life of the contract.
